PERSONAL PROFILE

Enthusiastic and detail-oriented final-year Information Technology undergraduate with a strong foundation in software development, testing, and problem-solving. Skilled in programming, debugging, and system analysis, with experience in web and mobile applications. A quick learner with a passion for innovation, teamwork, and continuous improvement, eager to contribute to a dynamic tech environment.

EDUCATION

BSc (Hons) Information Technology
2022-2025
General Sir John Kotelawala Defence University

G.C.E Advanced Level Examination - 2020
Eppawala Central College,Eppawala

EXPERIENCE

Trainee QA Engineer
Bank Of Ceylon - (September 2025 - March 2026)

BOC Library Managment System

- Performed manual testing on web-based systems to identify functional and UI defects
- Designed and executed test cases based on requirements and user scenarios
- Logged, tracked, and verified bugs using defect tracking tools
- Conducted regression testing to ensure issue fixes did not impact existing features
- Collaborated with developers and team members to improve software quality
- Prepared test reports and documentation

Data visualization platform

- Designed and executed test cases to validate the functionality and performance of the BI and data visualization platform.
- Performed API testing on FastAPI endpoints to ensure accurate data flow between frontend and backend systems.
- Conducted UI and dashboard testing to verify data accuracy and consistency in visualizations built with Chart.js.
- Validated database operations in SQL Server to ensure correct data storage, retrieval, and integrity.

PROJECTS

Cafe Miron Food Ordering System

- **Role:** Quality Assurance Engineer & web developer
- **Tech Stack Used:** Web-HTML,CSS,JS,Firebase App-Flutter,Firebase
- **QA Tester Responsibilities:**
  - Designed and executed test cases for system functionalities.
  - Performed functional, usability, and regression testing.
  - Identified, documented, and tracked defects
- **Web Developer Responsibilities**
  - Designed and developed the front-end and back-end components of the café management system.
  - Implemented responsive UI/UX using HTML, CSS, JavaScript
  - Developed and integrated APIs for order management, billing, and inventory tracking.
- **GitHub Link- https://github.com/Amanda-2000/WebProject**

CSV Data Analyzer and Visualizer

- **Role:** Quality Assurance Engineer & Frontend Designer
- **Tech Stack Used:** Python, Flask, flask-cors, pandas, React.js, Chart.js, Bootstrap, REST API
- **Responsibilities:**
  - Designed and executed test cases to validate CSV file uploads and data processing functionalities.
  - Performed functional and usability testing to ensure accurate data analysis and visualization.
  - Identified and documented defects related to data handling, API responses, and UI behavior.
  - Designed and developed an interactive user interface using React.js and Bootstrap.

Research Agent

- **Role:** Frontend Developer & System Architect
- **Tech Stack Used:** Python, LangChain, OpenAI, Pydantic, dotenv
- **Reponsibility:**
  - Implemented an interactive interface to display AI-generated research insights and summaries.
  - Ensured a smooth user experience by structuring responses clearly for easy understanding.
  - Designed the overall architecture for the AI-powered research assistant system.
- **Github link - https://github.com/Buwanekafernando/Research-Assistant-Aiagent**

A Crowdsourced Tourist Guide for Anuradhapura

- **Role:** Mobile Application Developer
- **Tech Stack Used:** Flutter, Firebase, Google Maps API
- **Responsibility:**
  - Developing a mobile application that allows users to share travel tips, destinations, and reviews.
  - Implementing user authentication and cloud data storage using Firebase.
  - Integrating Google Maps API to enable location-based travel recommendations.
  - Designing a user-friendly interface using Flutter for a seamless mobile experience.
  - Focusing on personalization features based on user preferences and travel feedback.

OrangeHRM Login Test Automation

- **Tech Stack Used:** Selenium WebDriver, Java (Basics)
- **Role:** Test Automation Engineer
- **Responsibility:**
  - Created and executed 5 automated test cases for OrangeHRM login using Selenium WebDriver and Java in IntelliJ.
  - Tested scenarios such as valid/invalid logins, blank fields, and user authentication.
  - Documented and reported test results to ensure a secure and efficient login process.

LICENCES AND CERTIFICATIONS

- **Software Quality Assurance Testing**
- **Introduction to Cybersecurity**
- **IoT Fundamentals: IoT Security**
- **CCNA: Introduction To Networks**
- **Oracle Cloud Infrastructure 2024 Certified AI Foundations Associate**

TECHNICAL EXPERTISE

- **Programming Languages:** Java, Python, JavaScript, SQL, C++, C, PHP
- **Web Development & Frameworks:** MERN stack (MongoDB, Express.js, React.js, Node.js), React.js, HTML5, CSS, Tailwind CSS, FastAPI, RESTful APIs, OAuth 2.0, WebSocket, Selenium WebDriver
- **Databases:** MySQL, Firebase
- **Tools & Platforms:** Visual Studio Code, GitHub, Visual Studio, Figma, Microsoft SQL Server Management Studio, Power BI, Postman, Google Cloud Storage , MS Office tools
- **Methodologies & Paradigms:** Agile, Object-Oriented Programming

VOLUNTEERING POSITIONS

- CSSL GenZ Chapter Kotelawala Defence University - PR Team Member (2024 - 2025)
- IEEE WIE Student Branch Affinity Group of Kotelawala Defence University - Financial Team Member (2024 - 2025)
- IEEE CS Kotelawala Defence University - PR Team Member (2024 - 2025)

ACHIEVEMENTS

- Winning the Second Runners-Up at the Software Engineering Project Exhibition in INOVERA'24 Organized by the Department of Information Technology Faculty of Computing

INTERESTS

- Quality Assurance
- Web Developer
- Business Analyst
